Make Personal Cyber Protection Insurance part of your household's cyber risk mitigation and recover strategy just in case you experience:

- **Cyber extortion**—attacks or threatened attacks against your home IT infrastructure.
- **Hacking/Crimeware**—malicious or unauthorised home IT infrastructure access.
- **Cyberbullying**—electronic communication through your home IT that targets your child or teenage family member with the aim of tormenting, harassing, humiliating or otherwise targeting them.
- **Cyberstalking**—malicious use of your home IT to stalk, abuse, control or frighten you.
- **Identity theft**—The unauthorised access to and use of your identity because of a cyber event to your home IT.
- **Personal financial loss**—loss of funds due to cyber theft.
- **Wage replacement benefit**—payment of lost wages as a result of taking unpaid leave in response to cyber theft, sim-jacking, identity theft, cyberbullying or cyberstalking.
- **Repair to e-reputation costs**—the removal or mitigation of internet publications that defame your reputation.
